

## Optimizing Your Fleet's Performance

With Performance Desk, shipowners and charterers gain a strategic partner in post-voyage evaluation. We help you understand what went right, what went wrong, and how to improve for the future. Our maritime expertise and hands-on approach ensure you get practical, data-backed recommendations—not just automated reports.

Oceata  
**Performance Desk**  
- because every  
voyage leaves  
a data trail.

Let's use it wisely

Performance Desk  
by Oceata

In the high-stakes world of shipping, every voyage impacts your bottom line.

**Oceata's Performance Desk provides comprehensive post-voyage analysis, offering shipowners and charterers the expert insights needed to optimize performance, reduce costs, and enhance operational efficiency.**

**With deep maritime expertise and a data-driven approach, we turn voyage data into actionable intelligence - ensuring you stay ahead in a competitive market.**

## What is Performance Desk?

Performance Desk is an outsourced post-fixture consultancy service, delivering expert evaluations of voyage performance, speed and consumption (S+C), hull fouling, route deviations, heavy weather impact, cargo or ship damage, and laytime and demurrage calculations.

We provide in-depth analysis to support smarter decision-making and effective cost control.

## Key Areas of Analysis

### **Speed & Consumption (S+C):**

Validate if the vessel performed as per charter party terms, ensuring accurate claims and cost control.

### **Hull Fouling Assessment:**

Determine how hull and propeller conditions impacted fuel consumption and efficiency.

### **Deviation & Routing Analysis:**

Identify unnecessary detours, suboptimal routing, and inefficiencies that increase costs.

### **Heavy Weather Impact:**

Evaluate how severe weather affected performance, cargo, and overall voyage safety.

### **Cargo & Ship Damage Reports:**

Assess damages caused by rough seas, vessel motions, or operational decisions.

### **Laytime & Demurrage Calculations:**

Accurately determine laytime used and demurrage incurred, ensuring compliance and minimizing disputes.

## Why Choose Oceata's Performance Desk?

### **Unbiased, Expert-Led Consultancy:**

Our team of maritime professionals provides independent, fact-based assessments that eliminate disputes and support claims.

### **Actionable Data, Not Just Software:**

We combine industry expertise with real-world insights, using data as a tool rather than a solution in itself.

### **Cost Optimization:**

Identify fuel inefficiencies, excessive speed, or suboptimal routing that could impact profitability.

### **Improved Charter Party Compliance:**

Ensure vessels meet contractual obligations and avoid unnecessary penalties.

### **Proactive Fleet Management:**

Leverage historical voyage analysis (HVA) to make informed, strategic decisions for future charters and operations.

### **Marine Biology Expertise:**

Our team includes marine biologists who assess environmental impacts, biofouling risks, and sustainability factors that affect vessel efficiency.
